

BBA Assignment Syllabus

Comprehensive Assessment Specifications for All Core & Advanced Modules

This document outlines the official assignment directives, formats, submission parameters, and evaluation criteria for each of the 24 foundational, intermediate, and advanced modules comprising the CGU Bachelor of Business Administration (BBA) program. Every module contains a distinct, high-impact practical assignment weighted at 100% of the continuous assessment workload.

YEAR 1 / FOUNDATIONAL MODULES

BUS110 – Business Communication

Format: Executive Briefing & Communication Plan **Weight / Length:** 100% / 1,500 Words

Assignment Task:

Draft a formal internal Executive Briefing Memo addressing an organizational shift (e.g., a corporate move to permanent hybrid work structures). Outline the explicit internal communications framework needed to smooth over worker friction, mitigate message distortion across departments, and coordinate remote personnel.

Evaluation Benchmarks:

- Professionalism, clarity, tone, and appropriate structural layout of executive-level office memos.
- Strategic viability of the multichannel communication deployment blueprint.

MGT120 – Managing Business

Format: Comprehensive Organizational Audit **Weight / Length:** 100% / 2,000 Words

Assignment Task:

Select an active international corporation and execute a strategic audit using the POLC framework (Planning, Organizing, Leading, Controlling). Critique how their corporate governance structure aligns with modern volatile operating realities.

Evaluation Benchmarks:

- Accurate conceptual application of the POLC matrix to real-world management.
- Critical quality of structural management recommendations.

ACC130 – Accounting Principles I

Format: Financial Statement Construction Portfolio

Weight / Length: 100% / Ledger Balancing + 1,000 Words

Assignment Task:

Given a raw 12-month unadjusted transaction ledger for an early-stage company, process journal entries, post to ledger accounts, adjust balances, and construct a complete Income Statement, Balance Sheet, and Cash Flow Statement.

Evaluation Benchmarks:

- Absolute structural and numerical balancing accuracy across financial sheets.
- Compliant implementation of fundamental double-entry principles.

BUS140 – E-Commerce

Format: Digital Commerce Platform Blueprint

Weight / Length: 100% / 1,500 Words

Assignment Task:

Design a technical and operational architecture document for migrating a traditional brick-and-mortar storefront into an omni-channel e-commerce brand. Address infrastructure hosting, UI/UX pathways, secure API gateways, and regional data protection standards (GDPR/CCPA).

Evaluation Benchmarks:

- Technical feasibility of payment gateways, inventory sync architectures, and compliance models.
- Integration effectiveness of user acquisition and security metrics.

ECO150 – Principles of Economics

Format: Micro & Macro Market Impact Report

Weight / Length: 100% / 1,800 Words

Assignment Task:

Analyze a specific market sector (e.g., automotive, renewable energy) and map out structural adjustments triggered by changing variables: inflation rates, shifting price elasticity of demand, and newly imposed government tariff barriers.

Evaluation Benchmarks:

- Proper structural deployment of supply-demand curves and economic variables.
- Data-driven evaluation of policy interventions on market equilibrium.

FIN160 – Principles of Finance

Format: Corporate Capital Budgeting Case Analysis

Weight / Length: 100% / 1,500 Words + Excel Models

Assignment Task:

Examine competing multi-year investment options for an expanding manufacturing enterprise. Calculate and compare the Net Present Value (NPV), Internal Rate of Return (IRR), and Payback Periods to advise senior executives on the best path forward.

Evaluation Benchmarks:

- Mathematical precision in discounting future cash flows and tracking hurdle rates.
- Logical justification of capital-allocation choices under fiscal limits.

MKT170 – Principles of Marketing

Format: Strategic Marketing Mix Portfolio (4Ps)

Weight / Length: 100% / 2,000 Words

Assignment Task:

Develop a comprehensive marketing launch strategy for an innovative product entering a competitive sector. Provide precise target market segment profiles (demographic, psychographic) and map out an integrated 4Ps framework.

Evaluation Benchmarks:

- Depth and accuracy of market segment targeting criteria.
- Strategic alignment across positioning statements and pricing models.

HRM180 – Human Resource Management

Format: Workforce Optimization & Retention Strategy

Weight / Length: 100% / 1,500 Words

Assignment Task:

Analyze a major corporate case study dealing with high employee attrition and low morale. Design an end-to-end human capital recovery blueprint covering revamped recruitment pipelines, equity-driven reward systems, and remote performance tracking frameworks.

Evaluation Benchmarks:

- Alignment of compensation strategies with modern organizational behavior principles.
- Legal and ethical compliance of proposed labor and productivity metrics.

YEAR 2 / INTERMEDIATE MODULES

ACT210 – Accounting Principles II

Format: Corporate Financial Statement Analysis **Weight / Length:** 100% / 2,000 Words

Assignment Task:

Obtain the audited annual financial reports of two publicly-traded companies within the same sector. Conduct an exhaustive comparative analysis utilizing liquidity, profitability, leverage, and efficiency ratios to score their financial health.

Evaluation Benchmarks:

- Accuracy of calculated ratio formulas (Quick ratio, ROE, Debt-to-Equity).
- Insightfulness of the structural commentary regarding operational weaknesses.

MGT220 – Operations Management

Format: Process Mapping & Quality Optimization Report **Weight / Length:** 100% / 1,800 Words

Assignment Task:

Evaluate an operational production line or service workflow to isolate efficiency bottlenecks. Apply Lean manufacturing or Six Sigma concepts to eliminate waste, optimize cycle times, and introduce proactive quality control loops.

Evaluation Benchmarks:

- Correct structural use of workflow diagramming and capacity constraints.
- Viability and direct cost-benefit calculation of the optimized process layout.

BUS230 – Entrepreneurship

Format: Start-up Pitch Deck & Feasibility Report **Weight / Length:** 100% / 2,500 Words

Assignment Task:

Formulate an original, scalable business concept and construct a comprehensive investor-ready commercial blueprint. Include value proposition design, customer acquisition costs, break-even thresholds, and a 3-year funding road map.

Evaluation Benchmarks:

- Realism and structural integrity of market penetration and financial modeling assumptions.
- Clarity and persuasiveness of the underlying competitive advantage statement.

BUS240 – Sustainable Business Practices

Format: Corporate ESG Transformation Strategy

Weight / Length: 100% / 1,500 Words

Assignment Task:

Audit a heavily resource-dependent business and build an Environmental, Social, and Governance (ESG) pivot model. Address carbon emission downscaling, circular supply chains, and transparent reporting metrics using global GRI standards.

Evaluation Benchmarks:

- Actionable, metrics-driven balance between corporate profits and environmental targets.
- Thorough understanding of regulatory sustainability frameworks and compliance rules.

FIN250 – Financial Reporting

Format: IFRS Compliance Evaluation Framework

Weight / Length: 100% / 1,800 Words

Assignment Task:

Deconstruct complex corporate transactions involving revenue recognition, asset impairment, or lease treatments. Evaluate these cases to ensure strict compliance with International Financial Reporting Standards (IFRS) guidelines.

Evaluation Benchmarks:

- Accurate technical references and interpretation of explicit IFRS rules.
- Precision in adjusting accounting entries to reconcile compliance errors.

MGT260 – Logistics and Supply Chain Management

Format: Global Supply Network Optimization Model

Weight / Length: 100% / 2,000 Words

Assignment Task:

Map out and analyze a cross-border distribution network suffering from geopolitical bottlenecks or port congestion. Calculate optimal inventory positions using Economic Order Quantity (EOQ) variables and establish risk mitigation paths.

Evaluation Benchmarks:

- Mathematical precision in inventory planning and logistics safety stock metrics.
- Strategic depth of the multi-modal risk management backup network.

MKT270 – Cross-Cultural Marketing

Format: International Market Campaign Localization Deck **Weight / Length:** 100% / 1,500 Words

Assignment Task:

Take a consumer brand originating in a Western market and adjust its advertising and visual portfolio for successful deployment in a distinct cultural environment (e.g., East Asia or the Middle East). Apply Hofstede's Cultural Dimensions framework.

Evaluation Benchmarks:

- Academic mastery in leveraging Hofstede's index metrics to reshape marketing messaging.
- Avoidance of ethnocentric blind spots and cultural missteps in advertising design.

MGT280 – Business Information Management

Format: Enterprise IT Architecture Plan **Weight / Length:** 100% / 1,500 Words

Assignment Task:

Design an integrated information technology infrastructure configuration for an expanding medium enterprise. Map data pipelines between CRM, ERP, and localized database layers, ensuring data integrity and outlining cybersecurity defense patterns.

Evaluation Benchmarks:

- Logical cohesion of data flows between isolated enterprise software platforms.
- Adequacy of information access controls and modern cybersecurity frameworks.

YEAR 3 / ADVANCED & SPECIALIZATION MODULES

IBM310 – International Business Management

Format: Global Entry Strategy Paper **Weight / Length:** 100% / 2,200 Words

Assignment Task:

Formulate a market entry strategy for an enterprise seeking expansion into an unfamiliar region. Critically choose between FDI (Foreign Direct Investment), joint ventures, licensing models, or strategic alliances based on local market access barriers.

Evaluation Benchmarks:

- Depth of real-world regulatory risk assessment for the target country.
- Strategic alignment of the chosen corporate vehicle with local market realities.

IBM320 – Managing International Workforce

Format: Cross-Border Human Capital Framework

Weight / Length: 100% / 1,800 Words

Assignment Task:

Design a comprehensive global human resources policy framework governing international assignment lifecycles. Address expat compensation models, cross-cultural training programs, global compliance tracking, and structured repatriation processes.

Evaluation Benchmarks:

- Sophistication of expatriate support systems and cost mitigation planning.
- Adherence to international labor standards and regional regulatory requirements.

IBM330 – International Business Environment

Format: PESTLE Macro-Environmental Audit

Weight / Length: 100% / 2,000 Words

Assignment Task:

Conduct an intensive macroeconomic assessment of a country experiencing high socio-political or fiscal shifts. Utilize an expanded PESTLE analytical framework to determine risk values for long-term corporate asset investment.

Evaluation Benchmarks:

- Analytical depth across macro pillars (Political, Economic, Social, Technological, Legal, Environmental).
- Viability of proposed risk hedging and long-term asset security recommendations.

IBM340 – International Economics

Format: Trade Balance & FX Exposure Analysis

Weight / Length: 100% / 1,800 Words

Assignment Task:

Analyze how a specific nation's balance of payments and currency valuations respond to changing interest rates and central bank interventions. Model the resulting financial exposures for international businesses importing raw inputs from that area.

Evaluation Benchmarks:

- Correct application of international trade theories (e.g., comparative advantage, Heckscher-Ohlin).
- Technical accuracy in calculating currency risk exposures and hedging solutions.

IBM350 – International Marketing

Format: Global Brand Positioning Portfolio

Weight / Length: 100% / 2,000 Words

Assignment Task:

Formulate a unified international marketing initiative across three distinct geographic regions. Detail your standardizing vs. adapting product parameters, global pricing parity configurations, and unified digital channel marketing approaches.

Evaluation Benchmarks:

- Strategic logic behind decisions to standardize or adapt specific brand components.
- Design effectiveness of cross-border promotional frameworks.

IBM360 – Import and Export Management

Format: Global Trade Compliance & Logistics Manifest

Weight / Length: 100% / 1,800 Words

Assignment Task:

Draft an end-to-end operational export manifest for transporting a complex cargo category across international borders. Define exact Incoterms, customs declarations, tariff classifications, letters of credit, and compliance protocols.

Evaluation Benchmarks:

- Flawless application of Incoterms 2020 definitions and corresponding liability transfers.
- Completeness and statutory compliance of the generated cross-border documentation.

IBM370 – International Trade and Contemporary Issues

Format: Trade Protectionism Impact Thesis

Weight / Length: 100% / 2,000 Words

Assignment Task:

Critically examine the operational fallout from active regional trade disputes or protectionist shifts (e.g., bilateral tariff escalations). Detail the downstream adjustments required for organizational networks sourcing items from impacted regions.

Evaluation Benchmarks:

- Quality of data-driven analysis tracking the economic friction caused by trade barriers.
- Strategic value of alternative sourcing and supplier reorganization configurations.

IBM380 – International Business Management Capstone Project

Format: Strategic Business Plan & Defense Thesis

Weight / Length: 100% / 5,000 Words + Presentation

Assignment Task:

Synthesize your business education into an expansive, independent research thesis. Identify a critical strategic problem within a real international organization, conduct rigorous competitive audits (Porter's Five Forces, financial metrics), and construct an actionable multi-year corporate turnaround plan.

Evaluation Benchmarks:

- Advanced synthesis of financial, operational, marketing, and human capital theories.
- Methodological rigor, empirical evidence depth, and executive-level oral defense clarity.
