

MBA Module Assignment Syllabus

Executive Assessment Specifications for Core Requirements & Action Research Capstone

This syllabus compiles the official Application-Oriented Assignment (AOA) directives and evaluation rubrics for the CGU Master of Business Administration (MBA). Each core postgraduate module is evaluated via a 100% weighted strategic industry artifact, eliminating traditional exams to prioritize immediate executive competency and strategic execution.

CORE POSTGRADUATE ASSESSMENTS

MGT510 – Managerial Accounting

Format: Strategic Cost Optimization Audit **Weight / Length:** 100% / 3,500 Words

Assignment Task:

Analyze a multi-departmental corporate cost sheet. Map operational overheads using Activity-Based Costing (ABC), isolate financial variances under standard budgeting, and build a rolling quarterly projection model identifying direct cost-containment measures for senior executives.

Evaluation Benchmarks:

- Numerical validation of cost allocations using advanced ABC parameters.
- Strategic integration of variance solutions with overall corporate financial health.

MGT520 – Managing Business Strategy

Format: Corporate Competitive Realignment Thesis **Weight / Length:** 100% / 4,000 Words

Assignment Task:

Select a global organization facing digital disruption. Complete a thorough macro-environmental audit using PESTLE, Porter's Five Forces, and VRIO models. Formulate a 5-year corporate turnaround roadmap covering defensive diversification or joint-venture restructuring options.

Evaluation Benchmarks:

- Depth and data integration of market environment frameworks.
- Strategic alignment between identified ecosystem changes and the long-term corporate response roadmap.

MGT530 – Human Capital Management

Format: Institutional Restructuring & Culture Transformation Blueprint

Weight / Length: 100% / 3,500 Words

Assignment Task:

Address a post-merger integration scenario involving conflicting organizational cultures and executive attrition. Design a global human capital development architecture covering succession planning, global compensation alignment, performance KPI systems, and workforce change mitigation models.

Evaluation Benchmarks:

- Application of advanced change management theories (e.g., Kotter's 8-Step model, Lewin's Change model).
- Design validity of legal and performance metrics across international boundaries.

MGT540 – Marketing Management

Format: International Market Disruptive Expansion Matrix

Weight / Length: 100% / 3,500 Words

Assignment Task:

Develop an entry strategy for a high-value consumer product or enterprise service expanding into a highly saturated global marketplace. Formulate data-driven customer acquisition metrics, multi-channel pricing strategies, and automated digital tracking pipelines.

Evaluation Benchmarks:

- Empirical depth of customer segment maps and calculated Customer Lifetime Value (CLV) expectations.
- Integration of inbound content models and marketing technology tools.

MGT550 – Managing Operations

Format: Lean Supply Chain Value-Stream Architecture

Weight / Length: 100% / 3,500 Words

Assignment Task:

Deconstruct an international manufacturing or fulfillment operation experiencing supply delays. Build a current-state Value Stream Map (VSM). Identify and remove process waste using Lean Six Sigma methodologies, and establish a digital supply chain network plan.

Evaluation Benchmarks:

- Quantitative tracing of cycle times, lead metrics, and inventory turnover ratios.
- Systemic resilience of the proposed multi-tier supplier redundancy network.

MGT560 – Leading Organisation

Format: Executive Leadership & Governance Strategy Report **Weight / Length:** 100% / 3,500 Words

Assignment Task:

Evaluate the leadership breakdowns behind a major corporate ethical failure. Apply contemporary ethical framework models to diagnose governance flaws and build a long-term corporate compliance architecture complete with board oversight protocols.

Evaluation Benchmarks:

- Critical critique of leadership styles (Transformational, Servant, Autocratic) within high-stress settings.
- Structural integrity of corporate governance and whistle-blower protections.

MGT570 – Financial Management

Format: Corporate Mergers & Capital Restructuring Model **Weight / Length:** 100% / 4,000 Words + Valuation Sheets

Assignment Task:

Execute a formal financial valuation of a target company for acquisition. Calculate Free Cash Flow to Firm (FCFF), Weighted Average Cost of Capital (WACC), and enterprise valuation under different growth scenarios. Provide strategic recommendations on financing the purchase using debt vs. equity mix models.

Evaluation Benchmarks:

- Mathematical precision of financial modeling, terminal values, and cash flow formulas.
- Sophistication of the corporate restructuring financial strategy.

MGT580 – Project Management

Format: Enterprise Project Management Office (PMO) Charter **Weight / Length:** 100% / 3,500 Words

Assignment Task:

Construct a comprehensive Project Charter for an enterprise transformation initiative. Outline Work Breakdown Structures (WBS), analyze critical path timelines, map out resource allocation plans, and design a quantitative risk log complete with specific mitigation responses.

Evaluation Benchmarks:

- Logical cohesion across project goals, milestones, and contingency protocols.
- Proper implementation of PMBOK or Agile/Scrum portfolio parameters.

GRADUATE CAPSTONE THESIS

MGT590 – Action Research Project

Format: Empirical Business Thesis & Viva Voce
Defense

Weight / Length: 100% / 12,000 – 15,000
Words

Assignment Task:

Conduct an independent, empirical action-research study addressing a deep operational, strategic, or systemic problem in your current industry domain. Gather real-world primary or secondary data, apply advanced qualitative or quantitative analysis techniques, and formulate an extensive operational solution model. Deliver a written academic thesis alongside a real-time oral presentation defense (Viva Voce) to the CGU academic board.

Evaluation Benchmarks:

- Methodological rigor, clarity of data validation, and depth of literature integration.
- Practical corporate value of findings and performance under cross-examination by the board.
